H1N1 Prevention Tips

- **Stay Informed** (1-800-CDC-INFO for more information www.cdc.gov)
- Information is constantly being updated
- **Take everyday actions to stay healthy**
- Cover your nose and mouth with a tissue when you cough or sneeze. Throw the tissue in the trash after you use it
- Wash your hands often with soap and water, especially after you cough or sneeze. Alcohol based hand cleaners are also effective when soap or water is not available
- Avoid touching your eyes, nose or mouth
- Stay home if you get sick. CDC recommends that you stay home from work or school and limit contact with others to keep from infecting them

•Follow public health advice

- Regarding school closures, avoiding crowds and other social distancing measures

•Develop a family emergency plan as a precaution

- This should include storing a supply of food, medicines, facemasks, alcohol-based hand rubs and other essential supplies

•Avoid Close Contact

- Avoid close contact (6 feet) with people who are sick. When you are sick, keep your distance from others to protect them from getting sick too

•Practice other good health habits

- Get plenty of sleep, be physically active, manage your stress, drink plenty of fluids (no sugar or low sugar), and eat nutritious food

BETCO
Disinfectant & Deodorizer
Neutral pH
AF315

AF315 is neutral pH disinfectant, deodorizer, and detergent that keeps a beautiful shine on your floor longer. Guaranteed "no film" and "no haze," this bactericide is effective against a wide variety of microorganisms. Excellent as a wall washing disinfectant due to its non-filming characteristics. Eliminates odors and deodorizes as you clean.

Uses: Restrooms, appliances, glazed porcelain, finished wood surfaces, floors, and walls.

- Color: Turquoise
- Fragrance: Citrus Bouquet
- pH: 7
